- Offered exceptional customer service to all guests.

EDUCATION

University of Washington - Seattle

03/2022

Certification: Web Development

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handlebars.js, and React.js.

- 3.9 GPA
- Capstone Project: Digital Anvil, Assisted in creating a Game Review website called Digital Anvil. I was responsible for most of the models, database management using MySQL, and general "Back End". I also was integral to login, sign up, and Authorization.
- Capstone Project: Campers United, Part of a Team creating a full-stack React Application. Worked on the back end, including seeders, schemas (typedefs and resolvers), models, authorization, mutations, and queries. I also performed general maintenance and cleaning up of some front end material, primarily updating the App.js in case of any changes I made to the back end that disrupted the displaying of data.

Bellevue College - Bellevue, WA

05/2020

Associate of Science: General Studies
